AI Engineer

SUMMARY

Front-end developer with a good eye for design and user experience. Experienced in building responsive interfaces and working alongside cross-functional technical teams.

EXPERIENCE

Junior Web Developer | *TechSolutions*

2023 - Present

- Developed user interfaces using React and plain JavaScript.
- Built RESTful APIs using Express and Node.js to support frontend requirements.
- Wrote basic Python scripts for daily data parsing and reporting tasks.
- Used ChatGPT occasionally for basic syntax questions but primarily coded manually.

SKILLS

HTML, CSS, JavaScript, React, Node.js, Python, REST APIs.
